## **Modern Metalworking** John R. Walker

Modern Metalworking is a comprehensive text that introduces students to metalworking technology. It provides basic information about tools, materials, and procedures used in metalworking. It covers both hand- and machine-tool operations and supplies background information about industrial equipment and processes. Over 1500 photographs and drawings highlight important concepts and procedures.

Step-by-step instructions are presented for many processes and techniques.

Research and development activities are included for each chapter.

Plans for more than a dozen high-interest metalworking projects are included in the text.
